

Nothing wasted. Everything gained.®

#### **Preserve Gimme 5**

2018

#### **Meet Preserve**

# A leading sustainable consumer goods company and producer of stylish 100% recycled household products.

Preserve **transforms yogurt cups into toothbrushes** and take-out containers into tableware. Through innovations in recycled materials and sustainable design, Preserve has been creating more resourceful & less impactful ways to make everyday products for the kitchen, table, and bath since 1996.

- Category Leader: #1 selling products in the natural channel in three categories in the U.S. according to SPINS
- 100% recycled plastics: Saving energy, preserving natural resources and creating an incentive to recycle
- Made in the USA and BPA-Free
- Leader in Extended Producer Responsibility: In 2007, Preserve created an innovative take-back program, Gimme 5, to accept #5 plastics and transform them into new Preserve products
- **Penchant for partnerships:** Preserve partners with 5 leading U.S. green brands along with premier product design, manufacturing, and sales & marketing firms to bring together thought leaders to drive industry change.

Nothing wasted. Everything gained.®

created gimme 5 recycling program to divert waste from landfills SAVING VALUABLE RESOURCES

CRUELTY-FREE 📿

PARTNERS WITH STONYFIELD BRITA® & PLUM ORGANICS TO OFFER INNOVATIVE RECYCLING SOLUTIONS

TRANSFORMED 3.5 MILLION POUNDS OF RECYCLED PLASTIC INTO NEW PRODUCTS SINCE 1996

DESIGN & COLORS INSPIRED BY NATURE

BPA-FREE

#### #1 selling toothbrush in natural channel for more than 10 years

#### **Reusing Earth's Resources**

Nothing wasted. Everything gained.\*

#### **Preserve Toothbrush Mail Back Pack**

We paid the postage to have your Preserve Toothbrush returned to us for recycling.

#### **Plastic in U.S. Household Waste Stream**

#5 polypropylene use is rising while recycling rates remain low

Resin	Recycling rate
#1 PET	20%
#2 HDPE	10%
#5 PP	<1%

### **Our Solution: Utilize Existing Infrastructure**

Leverage and build the existing retail-based recycling system infrastructure

#### **Gimme 5 Recycling Process**

#### **Back-End Operations**

- Hand sort the plastic
- Separate out Preserve products and Brita filters.

Grind/Float

- Friction wash and grind the material
- Float/sink the material to eliminate any non-PP contaminants

Compound

Compound the material for use in products

#### (Re)Make

Make Preserve
products

#### **Introducing Preserve Gimme 5**<sup>®</sup>

2018 marks Gimme 5's tenth year in operation providing a first-of-its-kind recycling solution for products not generally accepted in municipal streams. Preserve launched Gimme 5<sup>®</sup> as a solution for recycling #5 plastics.

Gimme 5 is recognized as a groundbreaking example of extended producer responsibility – a partnership in which companies work together to manage their resource inputs and "waste" streams in a responsible and sustainable process for the health of people and the planet.

#### **Preserve Gimme 5 Partnerships**

Like-minded companies working together to bring innovation to extended producer responsibility.

Since the founding of Gimme 5, Preserve has worked together with brands including:

#### Gimme 5 has recycled more than 1 million lbs

Since its inception in 2008, Gimme 5 has recycled more than 1 million lbs and operates in nearly all Whole Foods Market regions.

#### **Gimme 5 brings out the story in WFM cutlery**

Nothing wasted. Everything gained.\*

#### **Preserve's Cutlery Single Use Cutlery**

### Preserve<sup>®</sup> Cutlery

### A more sustainable choice for food service providers

- Made from 100% recycled #5 plastic
- Recyclable through Preserve's Gimme 5 Program
- Made in the U.S.A.
- BPA + phthalate-free
- Supports zero-waste initiatives

#### Preserve® Cutlery is the best single-use option for environmentally conscious food service providers.

Made from 100% Recycled #5 Plastic: Preserve® aims to increase recycling rates by working with retailers and consumers to collect #5 plastic, recycle those materials, and then turn them into products made in the U.S.A.

#### **Preserve Compostables**

Disposable Cutlery Line

Nothing wasted. Everything gained.\*
