@lovinfoodrescue

40% of food in the U.S. goes to waste49 million hungry Americans

Largest source of solid waste Massachusetts **bans** commercial food waste

25% of fresh water use 300 million barrels of oil In landfills, emits methane

\$750 million to incinerate food\$165 billion retail value

More than **700,000** food insecure in Massachusetts

More than **2.5 million** pounds of food rescued

Our Food Rescue Model: Direct Distribution

50+ donors 25,000+ pounds weekly

grocery stores farmers markets produce wholesalers bakeries

Same day delivery

refrigerated delivery vehicles professionally trained drivers mobile inventory tracking system

60+ non-profits 10,000+ clients weekly

homeless shelters soup kitchens food pantries crisis centers child care centers meal delivery programs

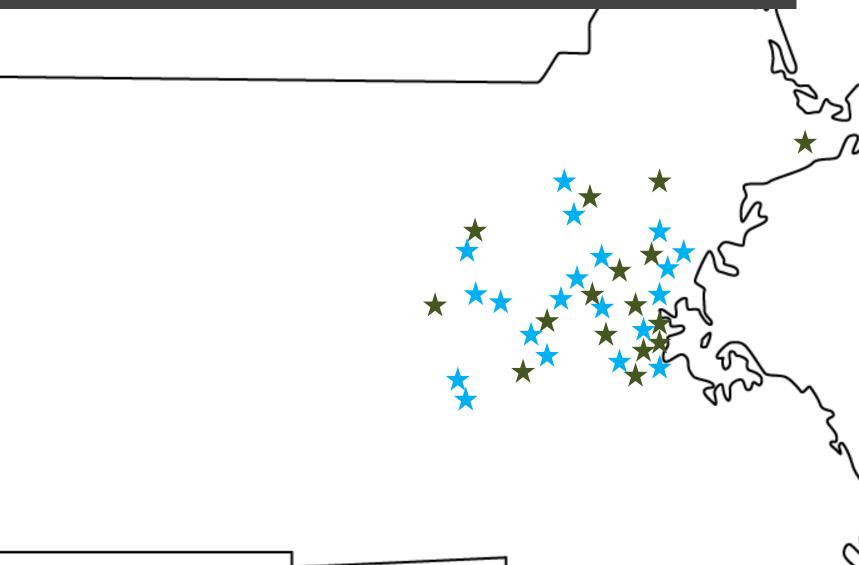

fresh fruits & vegetables

lean proteins

whole grains

dairy products

Growth with Whole Foods Market

Our Model vs. Other Solutions

Staffed by trained & certified employees

Refrigerated vehicles, ensuring the safest conditions for transporting food

On a consistent schedule

Digitally tracking product received, allowing for accurate reporting

Able to distribute product among a wide network of partners, ensuring the best use possible, and reducing waste

Collections are typically run by volunteers

Volunteers use their own vehicles

Collections are subject to volunteer availability

Not digitally tracked

Direct collections may be more than pantry needs, or not a direct fit for client needs, creating potential for food waste

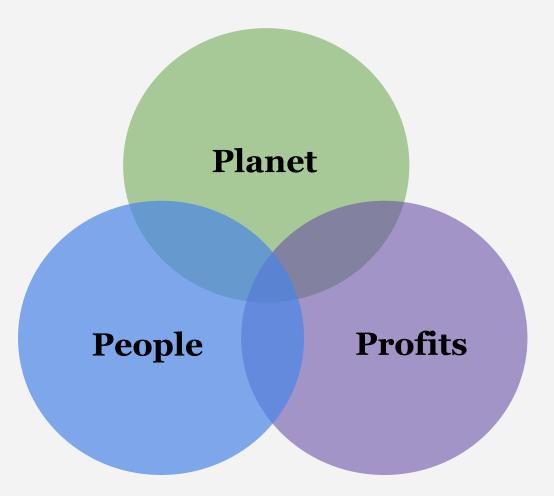

Lovin' Spoonfuls can replace collections currently being made by volunteers for agencies, ensuring proper handling and best use of agency resources.

Guaranteed Services

Our operational structure guarantees a consistent and safe service for our vendor partners. Additionally, we are able to offer:

- **Training for team members** from department staff to receivers
- **Materials** documents and guidelines to answer questions
- Access to our management team providing contacts at both ends of the relationship
- **Troubleshooting** in-store visits & reporting to ensure product is not being wasted

Triple Bottom Line Solution

30% less waste could feed 50 million people
