

Boloco Recycling and Waste Reduction

Company History & Sustainability

- 8 unit fast casual restaurant chain
- Founded 1997
- Certified B Corporation & Green Restaurant Certified
- Green practices in building construction & energy usage

Waste Reduction Initiatives

- Projected to divert 12 tons of recycling per store annually (front and back-of-house)
- Focus on bottles & cans separation for customers
- Back-of-house composting program for pre-consumer materials
- Key partnerships to ensure efficiency and maximize diversion

Hauling Contracts

- Adjusted hauling contracts reduced trash pickup from daily to twice per week
- Estimated \$4,000 annual savings per store

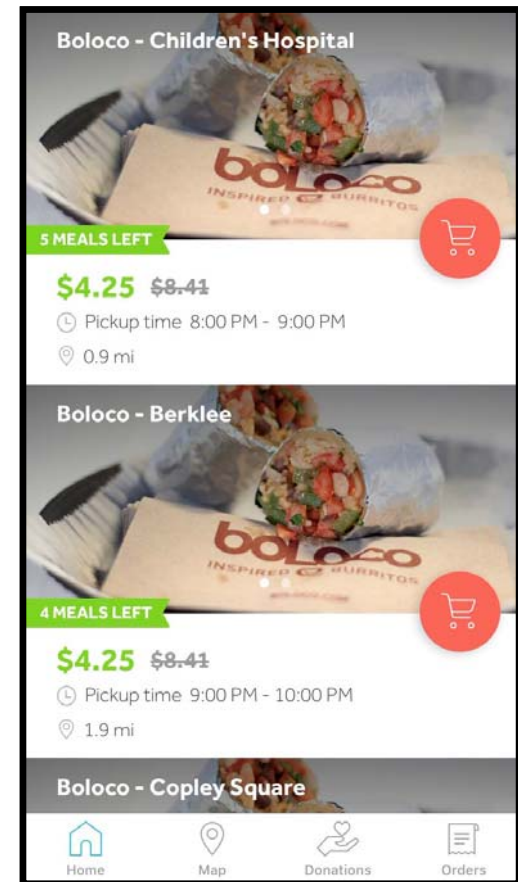

Employee & Customer Engagement

- All managers required to attend training and educational class on waste diversion programs
- Additional staff at waste station during peak hours to assist with sorting
- Signage for employees and customers

Food for All

- App provides discounted prices to customers at the end of the day
- 5-10 meals sold at half price daily
- 50 lbs of wasted food each day cut in half per location
- Proceeds to Greater Boston Food Bank

Thank you!
